Material required

PDF 1.3 generated only by Acrobat version 4.0 or subsequent. Texts must be composited (no separation); each file must contain only one page and should not be password protected.

Colours and resolutions

- For colour images, use only the CMYK space with a resolution of 150 dpi, any elements in RGB, Lab, Pantone, etc. must be converted to CMYK
- For grayscale images, use the Grayscale space with a resolution of 150 dpi.
- For line art, use the Black & White space with a resolution of 1000 dpi.
- For vector-based elements and texts use the CMYK space if in colour, or Grayscale if in B/W.
- Take into account, during the processing of the images, that the “dot gain” of the printing presses for newspapers is on average about 25%.

Tonal values

The minimum printable value cannot be lower than 12%, the maximum forces, with perceivable tonal passages, must not exceed 93%

Compression

For colour or grayscale images, use high-quality JPEG compression in the Distiller options. For line art images, in the Distiller options, use CCITT Group 4 compression

For vector-based graphic elements and text, in the Distiller select the “compress text and images” option and in the general settings select a resolution of 1000 dp.

Printing

Roto Offset

Layout

6 columns

Document dimensions

The document must reflect the exact dimensions from a technical list plus a blank space of 0.5 mm to the right and the bottom.

Sources used

- The sources must all be embedded in the PDF document;
- The sources used must all be of Type 1 (other types such as True Type, Type 3, MM, 2-bit, customer, must be transformed into vectors).

How to send materials

For Inpagina, submit a finished PDF via the InPagina website (<https://inpagina.cairorcsmedia.it/>)

DIGITAL MATERIALS DELIVERY TIMES

- B/W and Colour: 7 working days before the date of publication.
- Before booking, always check the availability of space with the head of magazines.

Notes

IMPORTANT

If the Customer, for reasons of force majeure, is unable to use the space previously reserved, it must provide written notice to the concessionaire of any date shifts at least 5 days before the release date of the newspapers, and at least 60 days before the release date for magazines.

VERY IMPORTANT

The production flow of RCS newspapers is completely digital.
